# Hybrid Bikes

Searching for a hybrid bike? You're in the right place. These awesome all-rounders balance the best bits of a road bike and mountain bike, creating a high-performance bike that's capable of tackling (almost) anything.

If you're looking for a capable commuter, tourer and leisure bike that's happy on the road and off it, then a hybrid could be perfect for you.

Hybrid bikes feature all the best bits of a road bike and a mountain bike! Most feature relaxed frame geometry and flat handlebars, which provide a comfortable upright riding position that provides extra visibility, essential for riding through traffic. Add to that a sturdy frame, great selection of gears and performance brakes, and it's easy to see why hybrids are an ideal bike choice for commuters.

Now, let's take a look at some of the hybrid bikes you can purchase through the Halfords Cycle2Work scheme and the accessories we recommend with each bike
